drawing on dramatic accounts by european colonials and on detailed studies by folklorists and anthropologists this work explores intriguing age old asian beliefs and claims that man eating tigers and little tigers or leopards alike were in various ways supernatural it is a serious work based on extensive research written in a lively style fundamental to the book is the evocation of a long vanished world when a man eater struck in colonial times people typically said it was a demon sent by a deity or even the deity itself in animal form punishing transgressors and being guided by its victims angry spirits colonials typically dismissed this as superstitious nonsense but given traditional ideas about the close links between people tigers and the spirit world it is quite understandable other man eaters were said to be shapeshifting black magicians the result is a rich fund of tales from india and the malay world in particular and while some people undoubtedly believed them others took advantage of man eaters to persecute minorities as the supposed true culprits the book explores the prejudices behind these witch hunts and also considers asian weretiger and wereleopard lore in a wider context finding common features with the more familiar werewolves of medieval europe in particular

smart readable and lushly illustrated tiger is a natural and cultural history of this potent and much admired creature

explains the physical characteristics life cycle habits habitat and endangered status of the tiger

tigers came to hong kong they preyed on pigs chickens cattle and deer they sometimes killed people they came most years through to the end of the 1950s as long as there were south china tigers in the wild hong kong saw some of them they stopped coming when they were on their way to extinction in china not many people know this but it s true and this is the first history of the hong kong tiger

from the author of the 2023 baillie gifford prize for non fiction winning fire weather an unbelievable tale expertly told patrick radden keefe author of empire of pain a superb book daily mail masterful mesmerising rangy and relentless sunday telegraph a man eating tiger is hunting villagers in the snowy forests of far eastern russia a small team of men and their dogs must hunt the tiger in turn as evidence mounts it becomes clear that the tiger s attacks aren t random it is seeking revenge injured starving and extremely dangerous the tiger must be found before it strikes again as he tracks the tiger s deadly progress john vaillant draws an unforgettable portrait of a distant and brutal region over 5 000 miles from moscow in the harsh depths of winter in primorye a gripping tale of man and nature unfolds exciting memorable and perfectly impeccably right a tale of astonishing power and vigour simon winchester author of the surgeon of crowthorne extraordinary a brilliantly told tale of man and nature new york review of books

in parts of korea and china moon bears black but for the crescent shaped patch of white on their chests are captured in the wild and brought to bear farms where they are imprisoned in squeeze cages and a steel catheter is inserted into their gall bladders the dripping bile is collected as a cure for ailments ranging from an upset stomach to skin burns the bear may live as long as fifteen years in this state rhinos are being illegally poached for their horns as are tigers for their bones thought to improve virility booming economies and growing wealth in parts of asia are increasing demand for these precious medicinals already endangered species are being sacrificed for temporary treatments for nausea and erectile dysfunction richard ellis one of the world s foremost experts in wildlife extinction brings his alarm to the pages of tiger bone rhino horn in the hope that through an exposure of this drug trade something can be done to save the animals most direly threatened trade in animal parts for traditional chinese medicine is a leading cause of species endangerment in asia and poaching is increasing at an alarming rate most of traditional chinese medicine relies on herbs and other plants and is not a cause for concern ellis illuminates those aspects of traditional medicine but as wildlife habitats are shrinking for the hunted large species the situation is becoming ever more critical one hundred years ago there were probably 100 000 tigers in india south china sumatra bali java and the russian far east the south chinese caspian balinese and javan species are extinct there are now fewer than 5 000 tigers in all of india and the numbers are dropping fast there are five species of rhinoceros three in asia and two in africa and all have been hunted to near extinction so their horns can be ground into powder not for aphrodisiacs as commonly thought but for ailments ranging from arthritis to depression in 1930 there were 80 000 black rhinos in africa now there are fewer than 2 500 tigers bears and rhinos are not the only animals pursued for the sake of alleviating human ills the list includes musk deer sharks saiga antelope seahorses porcupines monkeys beavers and sea lions but the dwindling numbers of those rare species call us to attention ellis tells us what has been done successfully and contemplates what can and must be done to save these animals or sadly our children will witness the extinction of tigers rhinos and moon bears in their lifetime

sumatran tigers may be fierce with sharp teeth and claws but they are at risk of extinction readers will learn what is putting these big cats in danger including hunting and a shrinking habitat as well as what people are doing to help them

this original and wide ranging work examines historical perceptions of nature in china and the relationship between insider and outsider state and village top down conservation policy and community autonomy after an introduction to the history of wildlife conservation and nature reserve management in china the book places recent tiger conservation efforts in the context of a two thousand year gazetteer of tiger attacks the longest running documentation of human wildlife encounters for any region in the world this record offers a unique perspective on the history of the tiger as a dynamic force in the political culture of china while the tiger has long been identified with political authority the chinese pangolin and its earthly magic have exerted a powerful influence in the everyday lives of those working and living in the fields and forests today the tiger and the pangolin government officials and village communities must work together closely if wildlife habitat conservation programs are to succeed extensive fieldwork in the meihuashan nature reserve and other protected areas of western fujian have led the author to advocate a landscape ecological approach to

habitat conservation by linking economic development to land use practices he makes a strong case for integrating nature conservation efforts with land tenure and other socio ecological issues in china and beyond

blood of the tiger takes readers on a wild ride to save one of the world's rarest animals from a band of chinese billionaires many people think wild tigers are on the road to recovery but they are in greater danger than ever from a menace few experts saw coming there may be only three thousand wild tigers left in the entire world more shocking is the fact that twice that many some six thousand have been bred on farms not for traditional medicine but to supply a luxury goods industry that secretly sells tiger bone wine tiger skin décor and exotic cuisine enjoyed by china's elite two decades ago international wildlife investigator j a mills went undercover to expose bear farming in china and discovered the plot to turn tigers into nothing more than livestock thus begins the story of a personal crusade in which mills mobilizes international forces to awaken the world to a conspiracy so pervasive that it threatens every last tiger in the wild in this memoir of triumph heartbreak and geopolitical intrigue mills and a host of heroic comrades try to thwart a chinese cadre's plan to launch billion dollar industries banking on the extinction of not just wild tigers but also elephants and rhinos her journey takes her across asia into the jungles of india and nepal to russia and africa traveling by means from elephant back to presidential motorcade in the company of man eaters movie stars and world leaders she also journeys to the us where we meet people like carole baskin of big cat rescue who work tirelessly to end cub petting and ban private ownership and breeding of tigers and other big cats she finds reason for hope in the increasing number of chinese who do not want the blood of the last wild tigers to stain their beloved culture and motherland set against the backdrop of china's ascendance to world dominance blood of the tiger tells of a global fight to rein in the forces of greed on behalf of one of the world's most treasured and endangered animals
