philosophical foundations of mixed methods research provides a comprehensive examination of the philosophical foundations of mixed methods research it offers new defences of the seven main approaches to mixed methods the pragmatist approach the transformative approach the indigenous approach the dialectical approach the dialectical pluralist approach the performative approach and the realist approach written by leading mixed methods researchers each approach is accompanied by critical

reflections chapter from philosophers point of view the book shows the value of the use of mixed methods from a philosophical point of view and offers a systematic and critical examination of these positions and approaches from a philosophical point of view the volume also offers a platform to promote a dialogue between mixed methods researchers and philosophers of science and provides foundations for further research and teaching of this hotly debated topic this volume is ideal for researchers and advanced students and anyone who is interested in research methods and the social sciences more generally

this book provides an account of an original educational philosophy developed by one of the most significant philosophers of the late twentieth and early twenty first centuries roy bhaskar though he directed his attention to wider matters than education his philosophy has implications for the way we can understand how the world is structured and in turn how we can transform it to accommodate a desire for a better arrangement of resources for human well being it is thus both a theory of mind and world and in addition a theory of education roy bhaskar s philosophy has a view on the following important matters intentionality agential capacity materialism the possibility of describing and changing the world progression education and the lifecourse essentialism and human nature pedagogy knowledge and knowledge development the formation of the self curricular aims and objectives being with other people the self in the learning process the relationship between the self or agency and the environment stratification emergence representation and its different modes structures and mechanisms the dialectic and criticality

since the publication of roy bhaskar s a realist theory of science in 1975 critical realism has been evolved as one of the new developments in the areas of philosophy of natural and social science which offers an alternatively fresh view to the existing theories including positivism and post modernism bhaskar s intellectual movement which is now fully international and multi disciplinary and continues to influence the philosophies of natural and social science has transformed into dialectical critical realism hereafter dcr and the philosophy of meta reality mingyu will conclude that his anti anthropic non duality continues through all the steps of bhaskar s thought maintaining the consistency of his scientific metaphysical and spiritual journey the anti anthropic motif is fully realized in the philosophy of non duality the constellational identification of dualism duality and non duality in his meta reality defending bhaskar against collier agar and morgan mingyu tries to show how its anti anthropic and non dualistic foundation is sustained through the whole of bhaskar s journey involving a transformation of its subject matters from reality to the dialectic of reality to the real truth underlying the former stages this book provides an indispensable resource for all students of philosophy and the human sciences

golden jubilee commemoration volume 1907 58 unnumbered 1961

includes section reviews and notices of books

constructivism and practice advances the understanding of the role of construction and model creation and reflects on the relationship of these models to social practices
